

# AHCSS00187 Mined Land Rehabilitation Field Worker Skill Set (was AHCSS00124)

Following strategic revisions of the AHC Training Package by unit sector, several qualifications and skill sets require updating to include the improved units.

Skills Insight is seeking comment from those who may be impacted by the replacement of the units so that disruptions can be minimised. These updates are not to change the intent of the qualifications, simply to include units already consulted on with stakeholders to better meet skills needs.

Below is an updated version of Mined Land Rehabilitation Field Worker Skill Set as well as a summary of the updates made to units within it.

This document provides a list of units of competency to be updated in this skill set and includes notes on changes between the current and updated units. Other units are not included as they don't need to be changed.

## Acronyms:

E – Equivalent  
NE - Not Equivalent  
PC – Performance Criteria  
PE – Performance Evidence
