This unit includes the use of pain relief medication when performing mulesing which is best practice. Mulesing is an animal welfare practice just like dehorning, castrating, etc. The issue for industry is the lack of RTOs willing/able to deliver the unit. RTOs are unwilling/unable to deliver the unit due to institutions' animal welfare policies. Include "good stock handling techniques" where applicable in PCs, PE and KE. Assessment Conditions – Changed "Assessments for the following performance evidence... mulesing procedures" to "Assessment of this unit must be conducted on live animals." Broad Stakeholder: No further changes</p>
