

Ag qualification career mapping document

Skills Insight invites stakeholders with relevant expertise to review and provide feedback on the following tables.

These tables outline the alignment between [AHC Agriculture, Horticulture and Conservation and Land Management Training Package](#) qualifications, relevant industry sectors, job roles, corresponding AQF levels, and associated AHC qualifications.

Your input will help clarify whether current job titles in the AHC Training Package could be improved to increase appeal to potential job seekers.

Feedback sought on:

Career pathways

What are the educational and/or work experience requirements for a person to be employed in:

- an entry level job role? (Entry level roles typically reflect AQF Level 2 outcomes)
- a trade level role? (Trade level roles typically reflect AQF Level 3 outcomes)
- a managerial role? (Managerial roles typically reflect AQF Level 5 or 6 outcomes).

Job titles

- Do current **AHC Training Package job titles** accurately reflect titles currently used by industry?
- Would **stakeholder suggested job titles** better reflect current industry usage or requirements?
- Do you have any further comment or suggestion related to job titles?

The table below provides a summary of the Australian Qualification Framework (AQF) 'Application of Skills and Knowledge' descriptors for levels 1 to 6, along with example job roles that reflect these levels.

Learning outcomes	AQF 1 Certificate I	AQF 2 Certificate II	AQF 3 Certificate III	AQF 4 Certificate IV	AQF 5 Diploma	AQF 6 Advanced Diploma
Application of knowledge & skills to demonstrate	Some autonomy in highly structured & stable contexts & within narrow parameters.	Limited autonomy & limited judgement in structured & stable contexts & within narrow parameters.	Autonomy, discretion & judgement to plan and complete skilled work in a range of contexts & solve problems. Take responsibility for own work & limited responsibility for others.	Autonomy, judgement & responsibility for self & others related to specialised tasks or functions in known or changing contexts & within established parameters.	Autonomy and judgement in organising & performing complex /technical operations with responsibility for own & other's outputs in relation to broad parameters for quantity & quality.	Autonomy, judgement & responsibility to initiate, plan, design & manage specialised, technical and complex functions in known, unknown & changing contexts.
Example job roles	<ul style="list-style-type: none"> • Labourer • Process worker • Picker • Packer 	<ul style="list-style-type: none"> • Assistant Farm hand • Assistant Stock hand • Vehicle operator • Machinery operator 	<ul style="list-style-type: none"> • Agriculturist • Agricultural technician (commodity or mechanical) • Skilled technician • Precision machinery operator • Contractor • Senior farm hand 	<ul style="list-style-type: none"> • Supervisor • Team leader • Specialist technician • Contractor 	<ul style="list-style-type: none"> • Manager • Production manager • Analyst • Agronomist • Consultant 	<ul style="list-style-type: none"> • General Manager • Technical manager • Analyst • Consultant • Agronomist • Researcher

The tables of the following pages provide a summary of the relationships between AHC Training Package qualifications, industry sectors and job titles

Legend

- Current qualification titles are listed *in brown*.
- Current AHC Training Package job titles are shown in regular black text.
- Job titles as they are listed in the Companion Volume Implementation Guide are marked with (CVIG).
- Stakeholder suggested job titles are shown in blue text.

Livestock Meat Production – Beef, Sheep and others	Feedlot Beef/Sheep	Dairy Production	Shearing, Wool Handling & Harvesting
AQF Level 1: Typical job role - Closely supervised labourer doing structured/defined repetitive tasks			
AHC10222 Certificate I in Agriculture Entry level roles in the agriculture (Note: The Qualification Description does not list job titles)	AHC10222 Certificate I in Agriculture Entry level roles in the agriculture (Note: The Qualification Description does not list job titles)	AHC10222 Certificate I in Agriculture Entry level roles in the agriculture (Note: The Qualification Description does not list job titles) Dairy farm hand – entry level, junior or novice (WA)	AHC10222 Certificate I in Agriculture Entry level roles in the agriculture (Note: The Qualification Description does not list job titles)

Permaculture

AQF Level 1: Typical job role - Closely supervised labourer doing structured/defined repetitive tasks

AHC10422 Certificate I in Permaculture

Permaculture assistants:
permaculture farm hand
nursery worker in a community nursery
recycling centre helper
helper in a community or school garden
teacher's assistant

AQF Level 2: Typical job role - Supervised semi-skilled worker that complete routine tasks, and solves basic problems

AHC21722 Certificate II in Permaculture

Permaculture support workers:
urban food growing assistant
permaculture farmworker/field worker
community nursery worker
waste management worker (May include composting, recycling/circular economy specific roles) (SA)
school garden assistant

AQF Level 3: Typical job role - Autonomous highly skilled trade level worker that plans and completes own work and solves problems

AHC33822 Certificate III in Permaculture

Permaculture farm hand
Permaculture system coordinators:
permaculture urban garden worker
permaculture farm worker
worker in a Permaculture enterprise
small business owner/operator
community support

AQF Level 4: Typical job role - Autonomous highly skilled supervisor responsible for a team. May also be a specialist in part of the production system.

AHC42122 Certificate IV in Permaculture

Permaculture project supervisor
Permaculture project supervisors and/or designers:
supervisor of a food growing enterprise
school or community garden supervisor
developer and supervisor of sustainability projects, including overseas aid projects permaculture trainers
community support
small business owner/operator

AQF Level 5: Typical job role - General Manager with overall responsibility for the enterprise. May also be highly skilled specialist, technical manager, researcher or consultant

AHC52122 Diploma of Permaculture

Permaculture specialist

Permaculture project managers, consultants and designers:

sustainability officer in an organisation, school, local government office or NGO

sustainable education manager

design manager on large permaculture projects or developments

designer or manager of local government sustainability projects

designer or manager of workplace change for sustainability

trainer in permaculture or sustainability

overseas aid and development officer

AQF Level 6: Typical job role - General Manager with overall responsibility for the enterprise. May also be highly skilled specialist, technical manager, researcher or consultant

AHC60319 Advanced Diploma of Agribusiness Management

Agribusiness enterprise business manager (*Statement from qualification description*)

Broadacre Cropping (Cotton, cereal, oil seeds, and other)

AQF Level 1: Typical job role - Closely supervised labourer that doing structured/defined repetitive tasks

Dryland-/Rainfed

AHC10222 Certificate I in Agriculture

Entry level roles in the agriculture (likely to be a school leaver that does not require any formal qualification. Gap year, school work placement)

(Note: The Qualification Description does not list job titles)

[Agricultural assistant \(WA\)](#)

[Tractor operator \(PSC 2\)](#)

Note: Mixed farms may also require workers with basic livestock skills (PSC 2)

Irrigated

AHC10222 Certificate I in Agriculture

Entry level roles in the agriculture

(Note: The Qualification Description does not list job titles)

[Agricultural assistant \(WA\)](#)

Note: This entry level role will be carrying out manual labour tasks connected to irrigation (digging, carrying pipes, assisting with installation)

AQF Level 2: Typical job role - Supervised semi-skilled worker that complete routine tasks, and solves basic problems

AHC20122 Certificate II in Agriculture

Assistant farm or station hand/worker/labourer

Farm machinery worker

Assistant farm fencing contractor – (Note: should this specific job role be removed from the qualification description?)

[Vehicle Operator \(VIC\)](#)

[Machinery Operator \(online 9/5\) for planting and harvesting \(includes harvester/combine operator and trucks\)](#)

[Farm hand \(WA\)](#)

[Truck driver \(PSC 2\)](#)

AQF Level 3: Typical job role - Autonomous highly skilled trade level worker that plans and completes own work and solves problems

AHC30122 Certificate III in Agriculture

Dryland /Rain fed (not irrigated)

Farm hand (broadacre cropping)

Farm worker (broadacre cropping)

[Skilled Agricultural Technician \(broadacre cropping\) \(WA\)](#)

[Skilled Agricultural Technician \(Mechanical - plant and machinery operations\) \(WA\)](#)

[Skilled Agricultural Technician \(drones and other emerging technologies\) \(PSC 2\)](#)

[Machinery Operator for planting and harvesting \(includes harvester/combine operator and trucks\) \(PSC 2\)](#)

Cotton

[Farm hand \(VIC\)](#)

[Pest and disease checker \(VIC\)](#)

[Tractor Operator \(VIC\)](#)

Skilled Agricultural Technician (Irrigation) (PSC 2) (mainly eastern states)

Irrigated (includes Cotton, Rice, Soy beans)

Farm hand (broadacre cropping)

Farm worker (broadacre cropping)

Farm hand (VIC)

AQF Level 4: Typical job role - Autonomous highly skilled supervisor responsible for a team. May also be a specialist in part of the production system.

AHC40122 Certificate IV in Agriculture

Dryland

Farm supervisor (grain) - (Note: Suggestion that grain be replaced with broadacre cropping or broadacre production (PSC 2))

Senior farm hand (VIC)

Overseer (VIC)

Leading hand (WA)

Assistant Manager (WA)

AQF Level 5: Typical job role - Manager responsible for the enterprise or part of the enterprise

Dryland

Farm manager (rice) - (Note: Suggestion that grain be replaced with broadacre cropping or broadacre production (PSC 2))

Station manager (Cropping Manager)

Farm manager (VIC)

Enterprise manager (WA)

Farm Section or Production manager (e.g. Production Manager (WA)

Irrigated

AQF Level 6: Typical job role - General Manager with overall responsibility for the enterprise. May also be highly skilled specialist, technical manager, researcher or consultant

AHC60319 Advanced Diploma of Agribusiness Management

Dryland

General Manager – Operations (VIC)

General Manager – Farming (VIC)

General Manager (WA)

CEO (WA)

(Note – GM roles can vary based on the enterprise size and complexity. For example – a manager could be in charge of one farm, several sections of a farm or several farms. A CEO could be responsible for one or more farms and related businesses)

Irrigated
