Window Furnishing and Shade Sails summary of proposed changes

DRAFT 3 OCTOBER 2025

Key to qualification/skill set/unit outcomes.

Major Change (New Code) - This component is proposed to be updated, with a new code	Split - This unit is being proposed to be slit to form two units	Minor Change (Same Code) – This unit is proposed to be updated with very minor changes.	Newly created unit	Deleted - This component is proposed for deletion

Summary of proposed changes to draft Qualification

Current qualification code on TGA	Current qualification Title on TGA	Temporary new qualification code	Proposed new qualification title	Qualification outcome	Broad Consultation 1 Summary of Change	Broad Consultation 2 Summary of Change	Consensus Gathering Summary of Change
MSF30919	Certificate III in Blinds, Awnings, Security Screens and Grilles	MSF30925	Certificate III Shading and Security Screens	Major change	**Qualification title:** updated to better reflect diversity of industry and remove dated language **Qualification description:** Updated to reflect current format and include specialisations. Removal of dated language and incorporate more specific products (e.g. louvre shutters and curtains).	**Core units:** Addition of MSFGN3004 Resolve quality and compliance issues (adjustment of packaging rules to 9 core, 15 elective). **Elective Group B (Manufacturing):** Addition of new units: MSFBAA3X15 Assemble	**Units moved:** MSFGG3004 Install residential windows and doors (moved to Group E from Group C) MSFSF2016 Operate a steam press, TLIA0020 Package goods and MSFSF2022 Cut single layer fabrics (moved

Summary of changes made during development phase – Window Furnishing and Shade Sails – October 2025

					Added statement reflecting requirement of construction induction for installers working on construction sites or performing work deemed construction work. **Packaging rules:** updated to reflect new stream of "security products" and remove "estimating detailing" to maintain trade focus of qualification. **Core units:** updated codes and titles to reflect superseded units, Increased to reflect competencies required across the industry and both shading and security sectors and to reflect a stronger approach to safety, sustainability, communications and teamwork. New unit identified for product knowledge due to previous unit superseding and becoming non-equivalent and no longer relevant to the industry. **Elective units:** updated to reflect current units (removal/replacement of superseded and deleted units) additional units	venetian blinds, MSFBAA3X12 Assemble roller blinds, MSFBAA3X13 Assemble vertical blinds and MSFBAA3X14 Assemble pleated blinds **Elective Group C (Installation):** Addition of MSFGN3003 Advise customers on products and services and MSFBAA3X18 Install curtains **Elective Group E (General):** Addition of CPCCCM2008 Erect and dismantle restricted height scaffolding, SIRXSLS001 Sell to the retail customer and MSFSF3017 Measure up and calculate fabric quantities for window coverings Overall updates to unit codes and titles for units updated in this phase.	from Group E to Group B) AHCLSC311 Install metal structures and features and MSFBAA3X11 Install automation and intelligent management systems (moved to Group C from Group E) **Elective Group B (Manufacturing):** Addition of shade sails units: MSTTX3014 Set up, adjust and maintain industrial sewing machines, MSTTF2018 Select and handle materials for manufactured textile products and MSTTF3013 Construct manufactured textile products **Elective Group D (General):** Reinstatement of shade sail unit: CPCCCO2013 Carry out concreting to simple forms

Summary of changes made during development phase – Window Furnishing and Shade Sails – October 2025

				imported from other qualifications within the package that reflect skills required, in particular for curtain making and installation, using industry-specific static machines and to include units required for licensing in some states/territories as general electives to allow them to be packaged in to the qualification). Addition of new units "Assess suitability of security screens" and "Identify installation work hazards and select risk control strategies" to meet safety and compliance needs for installers.		

Development of new Skill Set

Current unit code on TGA	Current unit title on TGA	Temporary new unit code	Proposed new unit title	Unit outcome	Broad Consultation 1 Summary of Change	Broad Consultation 2 Summary of Change	Consensus Gathering Summary of Change
NEW	NEW	MSFSSXXX30	Security Screen Skill Set	Newly created Skill set	Development of new skill set for security product installers encompassing key skills in fabricating and installing security products to Australian Standards. MSFBA2012 Use blinds, awnings, security screens and grilles hand and power tools MSFSS2004 Rectify faults in product MSFGN3004 Resolve quality and compliance issues MSFSSG3X2 Assemble non-security and security screens MSFSSS3X1 Install non-security and security screens MSFWHS3X1 Identify installation work hazards and select risk control strategies	**Correction:** Back to front unit codes were identified in unit selection (3X1 and 3X2 were incorrectly labelled, but unit titles and pre-requisites were correct).	No change.
NEW	NEW	MSFSSXXX31	Manufacturing Leadership Skill Set	Newly created Skill set	Not included in this phase.	Development of new skill set for manufacturing emerging leaders, team leaders and supervisors to	Change of units of competency to better reflect industry outcome. Removal of technical leadership (mistake proofing,

Current unit code on TGA	Current unit title on TGA	Temporary new unit code	Proposed new unit title	Unit outcome	Broad Consultation 1 Summary of Change	Broad Consultation 2 Summary of Change	Consensus Gathering Summary of Change
						build people leadership and production management skills.	operational planning, proactive maintenance) to focus on people leadership (teaching work skills, communicating, facilitating challenging conversations).
NEW	NEW	MSFSSXXX32	Exterior Shading Installer Skill Set	Newly created Skill set	Not included in this phase.	Development of new skill set for security product installers encompassing key skills in fabricating and installing security products to Australian Standards.	Retitled for clarity from Shading Screen Installer to Exterior Shading Installer.
NEW	NEW	MSFSSXXX33	Shading and Security Screen Sales Skill Set	Newly created Skill set	Not included in this phase.	Development of new skill set for exterior shading product installers encompassing key skills in safety, site assessment and installation.	No change.

Summary of proposed changes to draft Unit of competency

MSFBA2011	Select and apply hardware and fixings for	MSFBAA3X10	Select and apply hardware and fixings for	Major change	**Title:** Renaming of unit to better reflect outcome **Unit application:** Adjusted from manufacturing and	No change.	No change.

Summary of changes made during development phase – Window Furnishing and Shade Sails – October 2025

Current unit code on TGA	Current unit title on TGA	Temporary new unit code	Proposed new unit title	Unit outcome	Broad Consultation 1 Summary of Change	Broad Consultation 2 Summary of Change	Consensus Gathering Summary of Change
	blinds, awnings, screens, and grilles		shading and security screens installation		installation to installation only. **Performance Evidence:** Repetition of content from PC removed. **Knowledge Evidence:** Rewritten to facilitate removal of brand names and list of fixings not used cross-sector Focus on substrate impact of selection as well as product performance rather than understanding limits of fixings without direct link to application **Assessment conditions:** Updated to reflect current format		
MSFBA3011	Assemble awnings	MSFBAA3X1	Assemble awnings	Major change	**Unit Description/Application minor change to wording:** Updated to reflect current format and updates to performance evidence. **Elements and Performance Criteria minor changes to order and wording:** Updated flow in element 1 and 2 to better reflect	No change.	**Performance criteria** Minor changes to allow and/or for recycling and/or reuse of residual materials. **Knowledge evidence** Added button battery safety requirements.

Summary of changes made during development phase – Window Furnishing and Shade Sails – October 2025

Current unit code on TGA	Current unit title on TGA	Temporary new unit code	Proposed new unit title	Unit outcome	Broad Consultation 1 Summary of Change	Broad Consultation 2 Summary of Change	Consensus Gathering Summary of Change
					processes performed in the workplace. Merged PC 3.4 and 3.5 to reflect one process of handling tools and equipment cleaning, maintenance and storage. **Performance Evidence significant change to outcome and frequency, removal of repetition:** Updated to reflect current technologies and products manufactured in Australia. Repetition of content from performance criteria removed. **Knowledge Evidence significant change:** Repetitive or redundant evidence removed. **Assessment Conditions minor change to wording:** Updated to reflect current format.		Changed terminology to reflect "remote controlled device" instead of "radio controlled remote" for future proofing.
MSFBA3012	Assemble interior blinds	MSFBAA3X2	Assemble interior blinds	Major change	**Unit Description/Application minor change to wording:** Updated to reflect current format and updates to performance evidence.	**Elements and Performance Criteria:** Incorporated explicit Child safety requirements by adding PC 1.6	**Performance Criteria:** Addition of button battery safety requirements. Minor changes to allow and/or for recycling

Summary of changes made during development phase – Window Furnishing and Shade Sails – October 2025

Current unit code on TGA	Current unit title on TGA	Temporary new unit code	Proposed new unit title	Unit outcome	Broad Consultation 1 Summary of Change	Broad Consultation 2 Summary of Change	Consensus Gathering Summary of Change
					Elements and Performance Criteria minor changes to order and wording: Updated flow in element 1 and 2 to better reflect processes performed in the workplace. Merged PC 3.4 and 3.5 to reflect one process of handling tools and equipment cleaning, maintenance and storage. Performance evidence grouped into product types to ensure a range of skills are demonstrated and increase from four to five assemblies to ensure wider scope of competency captured and employability outcomes improved. **Performance Evidence significant change to outcome and frequency, removal of repetition:** Updated to reflect current technologies and products manufactured in Australia. Repetition of content from performance criteria removed.	**Knowledge evidence:** Added KE covering *The Competition and Consumer (Corded Internal Window Coverings) Safety Standard 2014.*	and/or reuse of residual materials. **Knowledge evidence:** Addition of button battery safety requirements. **Performance Evidence:** Minor adjustment to instructions that do not change the outcome (removal of groups as five products *different* assembled requires the same range as choosing from three groups, making grouping redundant).

						ensure safety and performance are skills needed by an installer and have been included as prerequisites **Elements and Performance Criteria minor changes to order and wording:** Updated flow in element 1 and 2 to better reflect installation processes performed in the workplace (removal of check measure by fitter, removal of booking with customer). Merged PC 3.4 and 3.5 to reflect one process of handling tools and equipment cleaning, maintenance and storage. **Performance Evidence significant change to outcome and frequency, removal of repetition:** Repetition of content from performance criteria removed. Scope updated to reflect current industry products and processes – there is no difference in

						commercial vs residential installs, creating a template and installing takes months as most products are made offshore and the install is the critical part (took out using template designed by individual). **Knowledge Evidence significant change:** Repetitive or redundant evidence. removed. E.g. automation is very uncommon for shutters, removed. Additional KE applied to the exterior shutters unit **Assessment Conditions minor change to wording:** Updated to reflect current format.	
MSFSF2020	Make up tracks for window coverings	MSFBAA2X3	Make up tracks for curtains	Major change	Not included in this phase	**Application** updated to reflect current standards **Elements and performance criteria:** Simplified by removing repetition, combining similar PC and checking language is current.	**Change of terminology:** From window coverings to curtains. **Performance criteria** Minor changes to allow and/or for recycling

FurnishingWorks, a part of ForestWorks, is providing support for the management of this JSC project as part of their collaborative partnership with Skills Insight.

Current unit code on TGA	Current unit title on TGA	Temporary new unit code	Proposed new unit title	Unit outcome	Broad Consultation 1 Summary of Change	Broad Consultation 2 Summary of Change	Consensus Gathering Summary of Change
					Unit developed to reflect wide range of products across furnishing sector		
NEW	NEW	MSFSSG3X3	Assess suitability of security screens	Newly created unit	To complement MSFBA3018 Assess suitability of blinds and awnings to address - Substrates - Site safety - Site suitability for chosen product (jamb thickness, cyclone / fire ratings)	**Title:** Updated. **Foundation skills:** Added numeracy **Assessment conditions:** Added calculating and measuring devices to required resources.	**No change**
NEW	NEW	MSFOPS3X2	Perform repairs and maintenance	Newly created unit	Not included in this phase.	Unit developed to meet industry need for problem solving and performing maintenance on existing installations.	**Knowledge evidence:** Addition of safety hazards and controls, clarity in language about transporting/moving products.
NEW	NEW	MSFBAA3X18	Install curtains	Newly created unit	Not included in this phase.	Unit developed to meet industry need for installing curtains and dressing windows.	**Performance Criteria:** Addition of button battery safety requirements. Minor changes to allow and/or for recycling and/or reuse of residual materials.
