

Skills Insight Update

May 2026

Skills Insight is Australia's Jobs and Skills Council (JSC) for agribusiness, fibre, furnishing, food, animal and environment care industries. As an independent, not-for-profit organisation, we're funded by government and governed by industry, providing employers, workers and training providers a direct voice to shape the national training system. This report provides an update on the progress of activities as part of our role as a JSC. While we share news through [our website](#) and [news alerts](#) for all stakeholders, this detailed update is for stakeholders with a deeper interest in our work.

Industries we support

Our industry stakeholders are connected by a complex value chain that is crucial to Australia's communities, ecosystems and prosperity.

- Animal care and management
- Aquaculture and wild catch
- Broadacre cropping
- Ecosystem management, conservation, landscaping and gardening
- Forest management and harvesting
- Furnishing and other manufacturing
- Horticulture
- Livestock farming
- Meat, poultry and seafood processing
- Pulp, paper, packaging and hygiene products
- Racing and breeding
- Textiles, clothing and footwear
- Timber, wood processing and building solutions

Training packages we support

- [ACM Animal Care and Management Training Package](#)
- [AHC Agriculture, Horticulture and Conservation and Land Management Training Package](#)
- [AMP Australian Meat Processing Training Package](#)
- [FWP Forest and Wood Products Training Package](#)
- [MST Textiles, Clothing and Footwear Training Package](#)
- [MSF Furnishing Training Package](#)
- [PPM Pulp and Paper Manufacturing Industry Training Package](#)
- [RGR Racing and Breeding Training Package](#)
- [SFI Seafood Industry Training Package](#)

Summary of key activities and projects

For more details on current activities, use the links below. Visit our [Annual Activity Plan webpage](#) for an overview of past and present projects.

Activity	Description	Type	Status	Comments
Workforce Planning Visit webpage	This work guides Skills Insight's priorities and project submissions and provides stakeholders with evidence to inform their own workforce planning, training strategies and investment in skills.	Strategic core function	Workforce Plan 2026-2027 submitted to DEWR	The draft Workforce Plan 2026-27 has undergone broad stakeholder review and was submitted to the Department of Employment and Workplace Relations (DEWR) on 30 April.
VET Workforce Project Visit webpage	Across Australia's regional, rural and remote areas, the VET sector is challenged in growing and sustaining a workforce to suitably train workers for our essential industries - creating a need for practical, feasible and industry-led attraction and retention solutions for the VET workforce.	DEWR-led collaborative project with all ten JSCs	Stream three underway with roundtable and networking events occurring around the country	Co-design of a Workforce Development Framework is underway to support collaboration between employers and RTOs in developing a regionally-based, fit-for-purpose VET workforce. Stream three also includes piloting a model for training First Nations workplace mentors, in partnership with a First Nations organisation.
ACM Veterinary Nursing Review Visit webpage	There is a growing demand for broader skills to provide essential care and treatment to animals across diverse environments and species. It is important that nationally endorsed	Training Package Project	Broad consultation feedback being reviewed	Select qualifications and units are being prepared for a second round of Broad Consultation due to the breadth of feedback received. Thank you to those who attended the STA/ISAB

Activity	Description	Type	Status	Comments
	veterinary nursing qualifications and related training package products align with the full range of contexts and job tasks required.			workshops last week. Your feedback is being considered as part of revisions to the draft documents that will soon be available for feedback.
AHC Agriculture Trade Apprenticeship Qualification Visit webpage	This project will develop a new nationally recognised Certificate III Agricultural Trade qualification and associated units within the AHC Training Package. It builds on prior feasibility work and strong industry and jurisdictional support.	Training Package Project	Development	A Technical Committee has been assembled to guide the project and has provided input into the Terms of Reference and Consultation Strategy. Development is underway to draft the qualification with the Technical Committee and sector-specific working groups.
AHC Rural Operations Project Visit webpage	The <i>Certificate II in Rural Operations</i> is used to provide learners with the foundational skills required across various industries, particularly in Northern Australia. This project is reviewing the qualification so it accurately captures the broad range of skills and knowledge required across industries and regions, in line with the Training Package Organising Framework (TPOF) 2025.	Training Package Project	Broad Consultation feedback being reviewed	Feedback on the proposed qualification title is being collected until 1 June 2026, prior to the draft being made available for stakeholder comment as part of the Consensus Gathering stage.
AMP Retail Butchers and Smallgoods Project Visit webpage	This is the next project in the ongoing review of the AMP Training Package. It will commence with a workforce functional analysis to confirm current	Training Package Project	Workforce functional analysis report developed	Insights from workforce functional analysis (WFA) workshops have been collated and analysed in a WFA report,

<i>This Skills Insight JSC project is being managed with the support of MINTRAC as part of our collaborative partnership.</i>	trade roles, regulatory requirements, visa eligibility and skill needs.			which will guide the review of training products.
MST Textile Flooring Manufacturing Pathway This Skills Insight JSC project is being managed with the support of TextileWorks, a part of ForestWorks, as part of our collaborative partnership.	The <i>Certificate II in Apparel, Fashion and Textiles</i> will be updated with a textile flooring manufacturing stream to create a clear entry pathway and support the sector's workforce.	Training Package Project	Project planning	Stakeholder engagement is underway and a Technical Committee is being assembled to guide this project. Further details and a project webpage will be available soon. View the Annual Activity Plan for more information about the planned scope and timeframes.
RGR Improved Training Pathways and Safety in Racing Visit webpage	This project will be undertaken in two phases. The first phase entails a skills review to analyse jobs roles and functions related to the RGR Racing and Breeding Training Package. The second phase will revise qualifications for horse breeding, trackwork riders and jockeys, reflecting industry's identification of these as a priority for review.	Training Package Project	Skills review underway	A national skills review is underway to build an understanding of current skills and job roles and their alignment to qualifications. Stakeholders are invited to participate by completing a survey and/or attending an online information session.

<p>Australia's Biosecurity - Skills Review</p> <p>Visit webpage</p>	<p>This is a cross-industry review that will analyse the skills needs to effectively implement the National Biosecurity Strategy. In partnership between Skills Insight (lead) and Public Skills Australia, this project will examine the skills needs and occupations connected to Biosecurity.</p>	<p>Research Project</p>	<p>Research and consultation</p>	<p>Detailed research is underway to review the roles, skills and training pathways that underpin Australia's environmental biosecurity system. An advisory committee is being finalised to guide consultation and project approach.</p>
<p>Landscaping Skills Review</p> <p>Visit webpage</p>	<p>Skills Insight and state landscaping associations are leading this project to identify and map landscaping job titles, roles, skills and knowledge at a national level. This will create a clearer picture of the industry, the capabilities it needs, and the career pathways it can offer.</p>	<p>Research Project</p>	<p>Consultation and Interim report underway</p>	<p>An interim Skills Review Report has been developed, bringing together findings to date. Consultation is still taking place and insights are being gathered through an online survey and upcoming industry events, including The Landscape Show (VIC) and The Landscape Association Expo (NSW).</p>
<p>Regional, Rural and Remote VET Policy Decision Making</p>	<p>This activity is derived from the Exploring Training Demand and Supply Challenges Report and will assess the feasibility of using integrated labour market and training data to support evidence-based decision-making in VET delivery, particularly for regional, rural and remote Australia. Findings may inform future cross-JSC and government initiatives aimed at strengthening</p>	<p>Research Project</p>	<p>Project planning</p>	<p>A selection of data sources relevant to VET delivery decisions have been identified for investigation. Proposals have been received from organisations with expertise in VET, regional issues and the development of evidence-based multi-factor decision-guidance tools. Further details and a project webpage will be available soon.</p>

	data-driven planning and transparency in training delivery.			
<p>Textiles, Clothing and Footwear Skills Mapping Project</p> <p>Visit webpage</p> <p><i>This Skills Insight JSC project is being managed with the support of TextileWorks, a part of ForestWorks, as part of our collaborative partnership.</i></p>	<p>This project will identify current and emerging skill needs, career pathways, transferable skills, and gaps in training provision. Insights from this work can be used to inform the design of training products and other workforce planning considerations. Targeted consultations will be undertaken with stakeholders across the industry, which will be used alongside existing data to provide a view of industry skills and occupations.</p>	Research Project	Development underway	<p>Consultation workshops took place through January-March, with discussions focussed on collectively mapping key job roles, discussing changing skill requirements, and identifying priority areas for workforce development and training products. Further targeted consultation is underway.</p>
<p>Flock Safe</p> <p>Visit webpage</p> <p><i>This Skills Insight JSC project is being managed with the support of MINTRAC as part of our collaborative partnership.</i></p>	<p>The avian influenza outbreak highlighted the importance of skills to care for individual flocks in protecting the biosecurity of the larger poultry industry. Skills Insight and MINTRAC are undertaking this project to deliver free biosecurity management planning workshops around the country and online.</p>	Pilot Project	Implementation underway	<p>National workshops were delivered throughout 2025 and early 2026. Post-workshop check-ins are now underway to assess training outcomes.</p>
<p>Mapping Animal Care and Management Licensing and</p>	<p>This project aims to assist registered training organisations (RTOs) in navigating licensing, legislative, regulatory, and certification</p>	Pilot Project	Finalisation	<p>The resource and report have been submitted to DEWR and will soon be</p>

Regulatory Considerations Visit webpage	requirements when delivering animal care and management training. A resource will be produced to provide accessible guidance on relevant requirements. The pilot will test a scalable structure and process that JSCs can apply across training packages in the future, creating a centralised resource.			published on the Skills Insight website for download.
Mapping of Workplace Training to Pulp and Paper Manufacturing Qualifications Visit webpage <i>This Skills Insight JSC project is being managed with the support of ForestWorks as part of our collaborative partnership.</i>	This project will map existing workplace training modules to PPM training package products, test the alignment through a gap analysis, and engage stakeholders to establish a clear pathway for formal skills recognition and workforce growth.	Pilot Project	Mapping activities and reporting	A project report of findings has been developed and shared with key stakeholders for feedback.
New Entrants as Sewing Machinists Visit webpage This Skills Insight JSC project is being	This project looks to develop a nationally scalable training model to support delivery of the Industrial Sewing Skill Set, attract new entrants and support priority cohorts, including women and culturally diverse learners.	Pilot Project	Project planning	Initial consultation and planning have commenced, and a project Working Group is being formed to guide the project.

<i>of our collaborative partnership.</i>				
Meat Processing Training Resources This Skills Insight JSC project is being managed with the support of MINTRAC as part of our collaborative partnership.	This project will develop nationally consistent training and assessment resources to support the recently updated Certificate II qualifications and revised units of competency in the meat processing sector. Resources will be developed in consultation with industry stakeholders and RTOs, ensuring alignment with compliance requirements, current practice, and workforce needs.	Implementation Support Materials Project	Project planning	Initial planning and stakeholder mapping underway. Further details and a project webpage will be available soon. View the Annual Activity Plan for more information about the planned scope and timeframes.
				Skills Insight has been invited to appear at hearings being conducted by the Senate Committee on Productivity in Australia.
Industry Skills Leadership Submissions	Skills Insight submissions reflecting stakeholder guidance on skills issues to consultations by major bodies that can influence decision-making.	Submissions to consultations	Ongoing	Skills Insight is currently developing a submission for the Parliamentary Inquiry into the factors driving educational attainment. A draft submission has been made available for review by JSC Stakeholder Forum Members.
				All JSCs will be working on a joint response to an Australian Tertiary Education Commission (ATEC)

Activity	Description	Type	Status	Comments
				Discussion Paper on tertiary harmonisation, due June 2026.
				Skills Insight continues to work with Forum Members on priority positions and opportunities.

Skills Insight is a Jobs and Skills Council funded by the Australian Government Department of Employment and Workplace Relations.
