

Meat Processing Pathways Project summary of proposed changes for Broad Consultation 1

September – October 2026

Summary of proposed changes to draft Unit of competency

Note – temporary codes have not yet been assigned to units. These will be assigned in the next round of consultation.

Key to qualification/skill set/unit outcomes

	Major Change (New Code) - This component is proposed to be updated, with a new code		Merged - This component is being proposed to be merged with another component		Split – This component has been split into one or more components		Minor Change (Same Code) – This component is proposed to be updated with very minor changes		Newly created component		Deleted - This component is proposed for deletion
--	---	---	---	---	---	---	---	---	-------------------------	---	---

Summary of proposed changes to draft Qualification

Current qualification code on TGA	Current qualification Title on TGA	Temporary qualification code	Proposed qualification title	Qualification outcome	Summary of changes for Broad Consultation
AMP20126	Certificate II in Meat Processing	NA	NA	Minor Change (Same Code) – This component is proposed to be updated with very minor changes	Updates to superseded or deleted units only.
AMP30116	Certificate III in Meat	AMP3X327	Certificate III in Meat	Major Change (New Code) - This component is proposed to be	Title: No change Description: Updated to reflect new training package standards Entry Requirements: No change

Summary of changes made during development phase – Meat Processing Pathways Project – August 2026

	Processing (Boning Room)		Processing (Boning Room)	updated, with a new code	Packaging Rules: Major change – removal of points system in favour of clearer elective selection Core Units: Major change – updated to reflect new core units developed in Stage 2 for Certificate III level qualifications in the AMP package. Elective Units: Major change to points system, updates to units to replace previously superseded or deleted units and those in scope for this stage of the package review.
AMP30216	Certificate III in Meat Processing (Food Services)	AMP3X427	Certificate III in Meat Processing (Food Services)	Major Change (New Code) - This component is proposed to be updated, with a new code	Title: No change Description: Updated to reflect new training package standards Entry Requirements: No change Packaging Rules: No change Core Units: Elective Units: Major change - updates to units to replace previously superseded or deleted units and those in scope for this stage of the package review. Pending further advice from industry and technical committee.
AMP30322	Certificate III in Meat Safety Inspection	NA	NA	Minor Change (Same Code) – This component is proposed to be updated with very minor changes	Updates to superseded or deleted units only.
AMP30421	Certificate III in Meat Processing (Rendering)	AMP3X527	Certificate III in Meat Processing (Rendering)	Major Change (New Code) - This component is proposed to be updated, with a new code	Title: No change Description: Updated to reflect new training package standards Entry Requirements: No change Packaging Rules: Major change – addition of second specialisation stream – Livestock Handling Core Units: To be confirmed with technical committee. Elective Units: Major change - updates to units to replace previously superseded or deleted units and those in scope for this stage of the package review.
AMP30516	Certificate III in Meat Processing (Slaughtering)	AMP3X627	Certificate III in Meat Processing (Slaughtering)	Major Change (New Code) - This component is proposed to be updated, with a new code	Title: No change Description: Updated to reflect new training package standards Entry Requirements: No change Packaging Rules: Major change – removal of points system in favour of clearer elective selection Core Units: Major change – updated to reflect new core units developed in Stage 2 for Certificate III level qualifications in the AMP package. Elective Units: Major change to points system, updates to units to replace previously superseded or deleted units and those in scope for this stage of the package review. Addition of wool classing units to general elective pool.

AMP30622	Certificate III in Meat Processing	AMP3X227	Certificate III in Meat Processing	Major Change (New Code) - This component is proposed to be updated, with a new code	Title: No change Description: Updated to reflect new training package standards Entry Requirements: No change Packaging Rules: Major change – addition of second specialisation stream – Livestock Handling Core Units: Major change – updated to reflect new core units developed in Stage 2 for Certificate III level qualifications in the AMP package. Elective Units: Major change - updates to units to replace previously superseded or deleted units and those in scope for this stage of the package review.
AMP31116	Certificate III in Meat Processing (Livestock Handling)	AMP3X227	Certificate III in Meat Processing	Merged - This component is being proposed to be merged with another component	This qualification is proposed to be merged with the AMP3X227 Certificate III in Meat Processing (once updated) as a specialisation. This qualification or the Certificate III in Meat Processing are required for PAMI licensing in Australia, allowing for the merging to facilitate one qualification outcome.
AMP31216	Certificate III in Meat Processing (Packing Operations)	AMP3X427	Certificate III in Meat Processing (Food Services)	Merged - This component is being proposed to be merged with another component	Units in this qualification are all contained in the AMP3X427 Certificate III in Meat Processing (Food Services), merging with this qualification will reduce unnecessary duplication.
AMP40222	Certificate IV in Meat Processing	NA	NA	Minor Change (Same Code) – This component is proposed to be updated with very minor changes	Updates to superseded or deleted units only.
AMP40522	Certificate IV in Meat Safety Inspection	NA	NA	Minor Change (Same Code) – This component is proposed to be updated with very minor changes	Updates to superseded or deleted units only.

Summary of proposed changes to draft Skill Set

Current skill set code on TGA	Current skill set title on TGA	Temporary skill set code	Proposed skill set title	Skill set outcome	Summary of changes for Broad Consultation
AMPSS00014	Effective Stunning (Captive Bolt) Skill Set	AMPSSXXX01	Effective Stunning (Captive Bolt) Skill Set	Major Change (New Code) - This component is proposed to be updated, with a new code	Updates made to reflect units of competency that have been superseded since last review. Foundation skills pending review once units finalised.
AMPSS00015	Effective Stunning (Electrical Stunning) Skill Set	AMPSSXXX02	Effective Stunning (Electrical Stunning) Skill Set	Major Change (New Code) - This component is proposed to be updated, with a new code	Updates made to reflect units of competency that have been superseded since last review. Foundation skills pending review once units finalised.
AMPSS00027	Humane Slaughter of Animals Skill Set	AMPSSXXX03	Humane Slaughter of Animals Skill Set	Major Change (New Code) - This component is proposed to be updated, with a new code	Updates made to reflect units of competency that have been superseded since last review. Foundation skills pending review once units finalised.

Summary of proposed changes to draft Unit of competency

Current unit code on TGA	Current unit title on TGA	Temporary unit code	Proposed unit title	Unit outcome	Summary of changes for Broad Consultation
AMPA2177	Handle working dogs in stock yards	AMPLSK2X01	Handle working dogs in stock yards	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Updated performance criteria to capture performance evidence not originally stated in performance criteria Performance Evidence: Removed duplication. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3000	Stun animal	AMPABA3X01	Stun animal	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Removed some duplication in element 1, removed “where required by work instruction” from PC 3.3 – this was mandated in performance evidence. Moved reporting equipment faults and use of measuring equipment from performance evidence to performance criteria as had not appeared in performance criteria first. Performance Evidence: Removed duplication by taking out performance evidence already explicit in performance criteria and in performance evidence opening statement (e.g. working safely, following regulatory requirements) Knowledge Evidence: Split some line items that read as unclear (e.g. workplace health and safety and consequences of not achieving effective stun were on the same line). Removed religious considerations – addressed in own unit Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package format.
AMPA3001	Stick and bleed animal	AMPABA3X02	Stick and bleed animal	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Split into sequenced elements. Updated to address skills noted in performance evidence that had not been explicitly included in performance criteria (e.g. minimising contamination/cross contamination, communication, health and safety and confirming knife sharpness and readiness for work). Performance Evidence: Condensed to minimise repetition of performance criteria and adjusted language to reflect new training package language.

					Knowledge Evidence: Expanded knowledge evidence relating to cross contamination to move “identify” performance criteria that was more relevant to knowledge to this section and updated performance criteria to reflect control instead of just identification. Removed religious considerations – addressed in own unit Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package format.
AMPA3004	Monitor the effective operations of electrical stimulation	AMPABA3X03	Monitor the effective operations of electrical stimulation	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Element 3 PC3.1 and 3.2 were “describe” moved to knowledge evidence, 3.3 was perform – moved to Element 2 Performance Evidence: Removed items explicit in PC (many were repeated) to ensure PE was a summary of evidence instead of a list of performance criteria Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Minor updates to align to other units in this release
AMPA3005	Rod weasand	AMPABA3X04	Rod weasand	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Updated elements to capture performance evidence not stated in elements and performance criteria. Expanded performance criteria to divide the rod weasand process into separate criteria. Performance Evidence: Removed duplication. Knowledge Evidence: Updated to align with other units relating to sealing the digestive tract for consistency. Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3006	Seal weasand	AMPABA3X05	Seal weasand	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Updated elements to capture performance evidence not stated in elements and performance criteria. Performance Evidence: Removed duplication. Knowledge Evidence: Updated to align with other units relating to sealing the digestive tract for consistency. Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3007	Ring bung	AMPABA3X06	Ring bung	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Updated element 1 to capture performance evidence not stated in elements and performance criteria. Performance Evidence: Removed duplication. Knowledge Evidence: Updated to align with other units relating to sealing the digestive tract for consistency.

					Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3008	Seal bung	AMPABA3X07	Seal bung	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Updated element 1 to capture performance evidence not stated in elements and performance criteria. Performance Evidence: Removed duplication. Knowledge Evidence: Updated to align with other units relating to sealing the digestive tract for consistency. Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3009	Split carcass	AMPABA3X08	Split carcass	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Added “no soft siding” and communication skills as first appeared in performance evidence without earlier context. Performance Evidence: Removed duplication by taking out performance evidence already explicit in performance criteria and in performance evidence opening statement (e.g. completing work, cleaning and maintaining equipment) Knowledge Evidence: removed “where applicable to saw knowledge, Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package format.
AMPA3010	Overview legging operation	NA	NA	Deleted - This component is proposed for deletion	This unit is being proposed for deletion due to duplication. This unit was a pre-requisite to <i>AMPA3012 Make first leg opening cuts</i> , <i>AMPA3013 Make second leg opening cuts</i> and <i>AMPA3014 Perform legging on small stock</i> . The unit was theory-only and the evidence addressed in this unit was already captured in the units it was a pre-requisite to. All of these units listed are in draft with the <i>AMPA3010 Overview legging operation</i> prerequisite unit removed.
AMPA3012	Make first leg opening cuts	AMPABA3X09	Make first leg opening cuts	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Added element to capture performance evidence not included in performance criteria and to ensure no content lost from removal of prerequisite Performance Evidence: List reduced to reduce repetition from performance criteria Knowledge Evidence: minor adjustments made to language and some additional evidence listed to ensure no content lost from removal of prerequisite Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3013	Make second leg opening cuts	AMPABA3X10	Make second leg opening cuts	Major Change (New Code) - This component is proposed to be	Application: Updated to new training package standard, did not change context.

				updated, with a new code	Elements and Performance Criteria: Added element to capture performance evidence not included in performance criteria and to ensure no content lost from removal of prerequisite Performance Evidence: List reduced to reduce repetition from performance criteria Knowledge Evidence: minor adjustments made to language and some additional evidence listed to ensure no content lost from removal of prerequisite Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3014	Perform legging on small stock	AMPABA3X11	Perform legging on small stock	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Added element to capture performance evidence not included in performance criteria and to ensure no content lost from removal of prerequisite Performance Evidence: List reduced to reduce repetition from performance criteria Knowledge Evidence: minor adjustments made to language and some additional evidence listed to ensure no content lost from removal of prerequisite Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3015	Perform animal slaughter in accordance with Halal certification requirements	AMPABA3X12	Perform animal slaughter in accordance with Halal certification requirements	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: No change Performance Evidence: No change Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3020	Bone neck	AMPABA3X13	Bone neck	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Adjusted to reflect correct order and split into 2 elements. Renamed element to not duplicate unit name. Moved some items from performance evidence for clarity and to meet current training package format (e.g. anatomical structure of neck) Performance Evidence: Moved relevant items to performance criteria and removed duplicates. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3021	Perform 'Y' cut	AMPABA3X14	Perform 'Y' cut	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Did not include preparation step in performance criteria that was later referred to in performance evidence. Added to new element 1. Performance Evidence: Removed duplication from performance criteria.

					Knowledge Evidence: Updated for clarity and to reflect other similar units. Added some knowledge evidence from AMPA3023 <i>Explain opening cuts</i> which is proposed for deletion and was a pre-requisite. Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3022	Skin head	AMPABA3X15	Skin head	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Adjusted to reflect appropriate order of plan and do and split into 2 elements. Moved some items from performance evidence for clarity and to meet current training package format (e.g. identification and application of sterilisation techniques and management of cross contamination) Performance Evidence: Moved relevant items to performance criteria and removed duplicates. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3023	Explain opening cuts	NA	NA	Deleted - This component is proposed for deletion	This unit is being proposed for deletion due to duplication. This unit was a pre-requisite to AMPA3024 <i>Perform flanking cuts</i>, AMPA3025 <i>Perform brisket cuts</i>, AMPA3027 <i>Perform rosette cuts</i>, AMPA3028 <i>Perform midline cuts</i>, AMPA3021 <i>Perform 'Y' cut</i> and AMPA3026 <i>Perform rumping cuts</i>. The unit was theory-only and the evidence addressed in this unit was already captured in the units it was a pre-requisite to. Due to the removal of the point system, this unit was small enough to be absorbed into the units it was a pre-requisite to without any loss of knowledge in the package. All of these units listed are in draft with the AMPA3023 <i>Explain opening cuts</i> prerequisite unit removed.
AMPA3024	Perform flanking cuts	AMPABA3X16	Perform flanking cuts	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Did not include preparation step in performance criteria that was later referred to in performance evidence. Added to new element 1. Performance Evidence: Removed duplication from performance criteria. Knowledge Evidence: Updated for clarity and to reflect other similar units. Added some knowledge evidence from AMPA3023 <i>Explain opening cuts</i> which is proposed for deletion and was a pre-requisite. Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3025	Perform brisket cuts	AMPABA3X17	Perform brisket cuts	Major Change (New Code) - This component is	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Did not include preparation step in performance criteria that was later referred to in performance evidence. Added to new element 1.

				proposed to be updated, with a new code	Performance Evidence: Removed duplication from performance criteria. Knowledge Evidence: Updated for clarity and to reflect other similar units. Added some knowledge evidence from AMPA3023 <i>Explain opening cuts</i> which is proposed for deletion and was a pre-requisite. Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3026	Perform rumping cuts	AMPABA3X18	Perform rumping cuts	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Did not include preparation step in performance criteria that was later referred to in performance evidence. Added to new element 1. Performance Evidence: Removed duplication from performance criteria. Knowledge Evidence: Updated for clarity and to reflect other similar units. Added some knowledge evidence from AMPA3023 <i>Explain opening cuts</i> which is proposed for deletion and was a pre-requisite. Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3027	Perform rosette cuts	AMPABA3X19	Perform rosette cuts	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Did not include preparation step in performance criteria that was later referred to in performance evidence. Added to new element 1. Performance Evidence: Removed duplication from performance criteria. Knowledge Evidence: Updated for clarity and to reflect other similar units. Added some knowledge evidence from AMPA3023 <i>Explain opening cuts</i> which is proposed for deletion and was a pre-requisite. Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3028	Perform midline cuts	AMPABA3X20	Perform midline cuts	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Did not include preparation step in performance criteria that was later referred to in performance evidence. Added to new element 1. Performance Evidence: Removed duplication from performance criteria. Knowledge Evidence: Updated for clarity and to reflect other similar units. Added some knowledge evidence from AMPA3023 <i>Explain opening cuts</i> which is proposed for deletion and was a pre-requisite. Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3029	Scald and dehair carcass	AMPABA3X21	Scald and dehair carcass	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Some items moved from PE to PC where better fit with current standards (e.g. communication) Performance Evidence: as above Knowledge Evidence: No change

					Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3030	Operate pelt puller	AMPABA3X22	Operate pelt puller	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Aligned to PE Performance Evidence: Removed duplication Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3031	Operate hide puller	AMPABA3X23	Operate hide puller	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Aligned to PE Performance Evidence: Removed duplication Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3032	Remove pelt manually	AMPABA3X24	Remove pelt manually	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Aligned to PE Performance Evidence: Removed duplication Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3033	Bed dress carcase			Merged - This component is being proposed to be merged with another component	This unit is being split and merged into other units that address this skill. The unit was allocated heavily weighted points due to the coverage and as a standalone unit is equivalent to completion of eight other units. This unit is merged through the following eight units: - AMPABA3X06 Ring bung - AMPABA3X07 Seal bung - AMPABA3X16 Perform flanking cuts - AMPABA3X17 Perform brisket cuts - AMPABA3X09 Make first leg opening cuts - AMPABA3X18 Perform rumping cuts - AMPABA3X20 Perform midline cuts - AMPABA3X10 Make second leg opening cuts.
AMPA3034	Eviscerate animal carcase	AMPABA3X26	Eviscerate animal carcase	Major Change (New Code) - This component is proposed to be	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: No change Performance Evidence: No change Knowledge Evidence: No change

				updated, with a new code	Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3040	Operate brisket cutter or saw	AMPABA3X27	Operate brisket cutter or saw	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Merged in <i>AMPA2012 Mark brisket</i> . Added preparing equipment and marking product. Moved some content from performance evidence to performance criteria for clarity. Performance Evidence: Removed duplication, embedded marking into overall evidence requirement Knowledge Evidence: Increased knowledge evidence to reflect knowledge relating to marking brisket. Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3042	Backdown pig carcass	NA	NA	Deleted - This component is proposed for deletion	This unit is being proposed for deletion due to duplication. This unit addressed the process of marking a carcass for cutting, which was absorbed into the unit <i>AMPA3054 Break carcass using a bandsaw</i> . Due to the removal of the point system, this unit was small enough to be absorbed without any loss of knowledge in the package. <i>AMPA3054 Break carcass using a bandsaw</i> is in draft with the <i>AMPA3042 Backdown pig carcass</i> prerequisite unit removed.
AMPA3044	Operate air knife	AMPABA3X28	Operate air knife	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Added new element 1 to capture performance evidence not stated in elements and performance criteria. Performance Evidence: Removed duplication. Knowledge Evidence: Minor wording change to provide more clarity. Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3045	Drop sock and pull shoulder pelt	AMPABA3X29	Drop sock and pull shoulder pelt	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Added element 1 to address PE not previously covered in performance criteria. Performance Evidence: Removed duplication Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3046	Undertake retain rail operations	AMPABA3X30	Undertake retain rail operations	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Restructured into sequenced elements covering preparation, trimming and workplace communication, and updated to explicitly include Quality Assurance personnel, regulatory requirements, communication and feedback requirements previously contained only in the performance evidence.

					Performance Evidence: Condensed to remove repetition of the performance criteria and focus on the overall evidence outcome and required assessment volume. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package standards
AMPA3048	Bone small stock carcass - leg	AMPBAS3X01	Bone small stock carcass - middle and leg	Merged - This component is being proposed to be merged with another component	Merged with: AMPA3064 Bone small stock carcass – middle Title: Renamed to reflect merged units. Application: Updated to new training package standard and noted the change in application to include both middle and leg as outcomes from the unit. Elements and Performance Criteria: Updated to remove duplication with performance evidence and reflect merged unit outcome. Expanded elements to cover both leg and middle boning. Performance Evidence: Removed items that duplicated performance criteria and updated to reflect new merged unit outcome. Knowledge Evidence: Merged and removed duplication. Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3049	Slice and trim leg - small stock	AMPBAS3X02	Slice small stock carcass - middle and leg	Major Change (New Code) - This component is proposed to be updated, with a new code	Merged with: AMPA3066 Slice small stock carcass – middle Title: Renamed to reflect merged units. Application: Updated to new training package standard and noted the change in application to include both middle and leg as outcomes from the unit. Elements and Performance Criteria: Updated to remove duplication with performance evidence and reflect merged unit outcome. Expanded elements to cover both leg and middle slicing. Performance Evidence: Clarified small stock definition in application instead of performance evidence. Removed items that duplicated performance criteria and updated to reflect new merged unit outcome. Knowledge Evidence: Merged and removed duplication. Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3050	Bone large stock carcass – forequarter	AMPBAS3X03	Bone large stock carcass - forequarter	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Updated to remove duplication with performance evidence Performance Evidence: Removed items that duplicated performance criteria. Knowledge Evidence: Updated to match other small stock boning units for consistency Assessment Conditions and Mandatory Workplace Requirements: updated to new standards

AMPA3051	Bone large stock carcase – hindquarter	AMPBAS3X04	Bone large stock carcase - hindquarter	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Updated to remove duplication with performance evidence Performance Evidence: Removed items that duplicated performance criteria. Knowledge Evidence: Updated to match other small stock boning units for consistency Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3052	Slice and trim large stock forequarter	AMPBAS3X05	Slice and trim large stock forequarter	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Updated element 1 to capture performance evidence not stated in elements and performance criteria. Clarified element 2 to reduce repetition. Merged element 3 and 4 for clarity. Performance Evidence: Removed duplication. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3053	Slice and trim large stock hindquarter	AMPBAS3X06	Slice and trim large stock hindquarter	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Updated element 1 to capture performance evidence not stated in elements and performance criteria. Clarified element 2 to reduce repetition. Performance Evidence: Removed duplication. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3054	Break carcase using a bandsaw	AMPBAS3X07	Break carcase using a bandsaw	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Added element 1 – preparation and moved safety to element 1 to ensure performance evidence was appropriately located. Performance Evidence: Moved to performance criteria and removed duplication. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3062	Operate trunk boning machine	AMPBAS3X08	Operate trunk boning machine	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Added element 1 – preparation and moved safety to element 1 to ensure performance evidence was appropriately located. Performance Evidence: Moved to performance criteria and removed duplication. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards

AMPA3063	Bone small stock carcass – shoulder	AMPBAS3X09	Bone small stock carcass - shoulder	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Updated to remove duplication with performance evidence Performance Evidence: Removed items that duplicated performance criteria. Knowledge Evidence: Updated to match other small stock boning units for consistency Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3064	Bone small stock carcass – middle	AMPBAS3X01	Bone small stock carcass - middle and leg	Merged - This component is being proposed to be merged with another component	Merged with: AMPA3048 Bone small stock carcass – leg Title: Renamed to reflect merged units. Application: Updated to new training package standard and noted the change in application to include both middle and leg as outcomes from the unit. Elements and Performance Criteria: Updated to remove duplication with performance evidence and reflect merged unit outcome. Expanded elements to cover both leg and middle boning. Performance Evidence: Removed items that duplicated performance criteria and updated to reflect new merged unit outcome. Knowledge Evidence: Merged and removed duplication. Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3065	Slice small stock carcass – shoulder	AMPBAS3X11	Slice small stock carcass - shoulder	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Updated element 1 to capture performance evidence not stated in elements and performance criteria. Clarified element 2 to reduce repetition. Performance Evidence: Removed duplication. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3066	Slice small stock carcass – middle	AMPBAS3X02	Slice small stock carcass - middle and leg	Merged - This component is being proposed to be merged with another component	Merged with: AMPA3049 Slice and trim leg - small stock Title: Renamed to reflect merged units. Application: Updated to new training package standard and noted the change in application to include both middle and leg as outcomes from the unit. Elements and Performance Criteria: Updated to remove duplication with performance evidence and reflect merged unit outcome. Expanded elements to cover both leg and middle slicing. Performance Evidence: Clarified small stock definition in application instead of performance evidence. Removed items that duplicated performance criteria and updated to reflect new merged unit outcome. Knowledge Evidence: Merged and removed duplication.

					Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3068	Prepare and despatch meat products	AMPLOA3X03	Prepare and despatch meat products	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Restructured and updated to explicitly include interpretation of product quantities, clarification of customer requirements, coordination of order preparation, workplace communication, verification of despatch documentation and action on documentation discrepancies previously contained or implied only in the performance evidence. Performance Evidence: Condensed to remove repetition of the performance criteria and focus on the overall evidence outcome and required assessment volume. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package standards
AMPA3071	Implement food safety program	AMPQUA3X01	Implement food safety program	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Added element 8 to capture documentation referenced for the first time in performance evidence. Performance Evidence: Removed duplication Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3086	Monitor boiler operations	AMPREN3X08	Monitor boiler operations	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Condensed to remove repetition of the performance criteria and focus on the overall evidence outcome and required assessment volume. Performance Evidence: Updated to include communication, monitoring of boiler operation, identification of production problems and out-of-specification product, corrective action, reporting and applicable regulatory requirements that were previously included only in the performance evidence. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package standards
AMPA3113	Prepare a kill sheet	AMPOPR3X01	Prepare and monitor a kill sheet	Major Change (New Code) - This component is proposed to be updated, with a new code	Unit title: Expanded to reflect monitoring process Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Consolidated element 1 and 2. Performance Evidence: Consolidated to remove repetition from performance criteria and made clear kill sheet must be developed and monitored over a production shift Knowledge Evidence: Moved two knowledge items from PE to KE (importance and application of PIC and NVD).

					Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3117	Oversee product loadout	AMPLOA3X01	Oversee product loadout	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Restructured into sequenced elements and updated to explicitly include supervision of product preparation and loadout, oversight of re-pack operations, workplace communication, coordination of corrective actions, and verification of loadout security and documentation. Performance Evidence: Condensed to remove repetition of the performance criteria and focus on the overall evidence outcome and required assessment volume. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package standards
AMPA3133	Manage NLIS data for pigs in lairage	AMPOPR303	Manage animal identification data	Merged - This component is being proposed to be merged with another component	This unit is proposed to be superseded by AMPOPR303 Manage animal identification data.
AMPA3134	Overview of the NLIS Pork	AMPOPR303	Manage animal identification data	Merged - This component is being proposed to be merged with another component	This unit is proposed to be superseded by AMPOPR303 Manage animal identification data.
AMPA3136	Monitor welfare of stock during out-of-hours receipt	AMPLSK3X01	Monitor welfare of stock during out-of-hours receipt	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Added some context when removing repetitive performance evidence. Performance Evidence: Removed duplication. Knowledge Evidence: Removed 'where appropriate' to reflect requirements for all individuals to demonstrate knowledge. Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPA3137	Operate biogas facilities	AMPREN3X09	Operate biogas facilities	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Condensed to remove repetition of the performance criteria and focus on the overall evidence outcome and required assessment volume. Performance Evidence: No additional requirements added, as all skills previously listed in the performance evidence are already explicitly covered by the performance criteria. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package standards
AMPA3138	Identify secondary	AMPQUA3X02	Identify secondary	Major Change (New Code) - This component is	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: No change

	sexual characteristics – beef		sexual characteristics - beef	proposed to be updated, with a new code	Performance Evidence: Removed repetition where items were already addressed in performance criteria. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPG303	Receive and inspect wild game carcasses from the field	AMPGAM3X01	Receive and inspect wild game carcasses from the field	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Restructured into sequenced elements and updated to explicitly include detailed carcass inspection requirements, disposition decisions, workplace communication, information handling, problem-solving, numeracy and use of workplace technology and equipment previously contained only in the performance evidence. Performance Evidence: Condensed to remove repetition of the performance criteria and focus on the overall evidence outcome, independence and required assessment volume. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package standards
AMPG304	Receive and inspect wild game carcasses at a processing plant	AMPGAM3X02	Receive and inspect wild game carcasses at a processing plant	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Removed “where applicable” from elements to ensure consistent performance is captured. Performance Evidence: Removed repetition from performance criteria. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPG305	Store wild game carcasses	AMPLOA3X02	Store wild game carcasses	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Restructured and updated to explicitly include movement of carcasses into and out of the chiller, hygiene, sanitation and Quality Assurance requirements, confirmation of storage requirements, refrigeration fault reporting and action on out-of-specification temperature results. Performance Evidence: Condensed to remove repetition of the performance criteria and focus on the overall evidence outcome and required assessment volume. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package standards
AMPG307	Inspect wild game field depot	AMPGAM3X03	Inspect wild game field depot	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: No additional requirements added, as hygiene and sanitation inspection, documentation of findings and communication with the field depot operator are already explicitly covered by the performance criteria.

					Performance Evidence: Condensed to remove repetition of the performance criteria and retain the required assessment volume of inspections on at least two separate occasions. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package standards
AMPOPR303	Manage animal identification data	NA	NA	Minor Change (Same Code) – This component is proposed to be updated with very minor changes	Application: No change Elements and Performance Criteria: No change Performance Evidence: Added tagging to ensure relevance to pork lairage Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: No change Mapping – Note this unit is superseding AMPA3133 <i>Manage NLIS data for pigs in lairage</i> and AMPA3134 <i>Overview of the NLIS Pork</i>
AMPP301	Operate a poultry carcass delivery system	AMPPOU3X01	Operate a poultry carcass delivery system	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Restructured and updated to explicitly include WHS hazard identification and controls, safe work practices, food safety requirements, corrective action for equipment faults and inconsistencies, and communication of outstanding issues during handover. Performance Evidence: Condensed to remove repetition of the performance criteria and focus on the overall evidence outcome and required assessment volume. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package standards
AMPP302	Debone and fillet poultry product (manually)	AMPPOU3X02	Debone and fillet poultry product (manually)	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: No change Performance Evidence: Removed duplication already covered in performance criteria (e.g. use of PPE, cleaning, pre-start checks) Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPREN301	Operate and monitor a batch rendering process	AMPREN3X01	Operate and monitor a batch rendering process	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Restructured into sequenced elements and updated to include raw material quality checks, equipment calibration, process flow adjustments, corrective action, liquid discharge management, environmental monitoring, workplace communication and detailed production reporting previously contained only in the performance evidence.

					Performance Evidence: Condensed to remove repetition of the performance criteria and retain only the required volume, frequency and range of evidence. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package standards
AMPREN302	Operate and monitor a continuous dry rendering process	AMPREN3X02	Operate and monitor a continuous dry rendering process	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Restructured into sequenced elements and updated to explicitly include raw material quality checks, cooker operating parameters, process monitoring, product discharge, corrective action and environmental monitoring requirements previously contained only in the performance evidence. Performance Evidence: Condensed to remove repetition of the performance criteria and retain the required volume, frequency and range of evidence. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package standards
AMPREN303	Operate and monitor a low temperature wet rendering process	AMPREN3X03	Operate and monitor a low temperature wet rendering process	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Restructured and updated to explicitly include raw material quality checks, endpoint temperature control, coarse meal grinding, drying of wet solids, machinery performance monitoring, corrective action for production and product issues, and environmental monitoring requirements previously contained only in the performance evidence. Performance Evidence: Condensed to remove repetition of the performance criteria and retain the required volume, frequency and range of evidence. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package standards
AMPREN304	Operate a tallow refining process	AMPREN3X04	Operate a tallow refining process	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: added “and record” to monitoring emissions data and removed from PE. Performance Evidence: Removed duplication by taking out performance evidence already explicit in performance criteria (e.g. hazard identification, risk control, use of PPE, documentation requirements) Knowledge Evidence: removed AS# and changed to just reflect “Australian Standards for” Assessment Conditions and Mandatory Workplace Requirements: Added mandatory workplace requirements statement

AMPREN305	Operate a blood coagulation and drying process	AMPREN3X05	Operate a blood coagulation and drying process	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Restructured into sequenced elements and updated to explicitly include emergency and isolation checks, equipment calibration, detailed corrective actions, environmental monitoring, accurate industry terminology in records and verbal handover requirements previously contained only in the performance evidence. Performance Evidence: Condensed to remove repetition of the performance criteria and retain the required volume, frequency and range of evidence. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package standards
AMPREN306	Render edible products	AMPREN3X06	Render edible products	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Restructured into sequenced elements and updated to explicitly include verbal confirmation of work requirements, raw material contamination checks, equipment calibration, process monitoring parameters, corrective actions, environmental monitoring, workplace communication and detailed production records previously contained only in the performance evidence. Performance Evidence: Condensed to remove repetition of the performance criteria and retain the required volume, frequency and range of evidence. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package standards
AMPX309	Identify and repair equipment faults	AMPOPR3X04	Identify and repair equipment faults	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Added new element 1 to capture performance evidence not stated in elements and performance criteria. Performance Evidence: Removed duplication. Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPX316	Monitor product to be sent to rendering	AMPREN3X07	Monitor product to be sent to rendering	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: Minor updates made to explicitly include corrective action, renderer requirements and documentation of improvement strategies and outcomes. Performance Evidence: Condensed to remove repetition of the performance criteria and retain the required assessment volume of a minimum of three separate shipments.

					Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: Updated to new training package standards
AMPX317	Monitor product flow in an automated process	AMPOPR3X02	Monitor product flow in an automated process	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: No change Performance Evidence: No change Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
AMPX410	Facilitate achievement of enterprise environmental policies and goals	NA	NA	Deleted - This component is proposed for deletion	This unit is being proposed for deletion due to duplication. This unit duplicates outcomes from other cross-sector environmental sustainability units, including BSBSUS411 Implement and monitor environmentally sustainable work practices
AMPX418	Lead communication in the workplace	NA	NA	Deleted - This component is proposed for deletion	This unit is being proposed for deletion due to duplication. This unit duplicates other cross-sector units of competency, including BSBXCM501 Lead communication in the workplace
AMPX431	Oversee meat processing establishment's Halal compliance	AMPQUA4X01	Oversee meat processing establishment's Halal compliance	Major Change (New Code) - This component is proposed to be updated, with a new code	Application: Updated to new training package standard, did not change context. Elements and Performance Criteria: No change Performance Evidence: No change Knowledge Evidence: No change Assessment Conditions and Mandatory Workplace Requirements: updated to new standards
