

AHC21226 Certificate II in Primary Industries and Rural Operations

Qualification Description

Description

This is a pathway qualification that provides individuals with the skills and knowledge for primary related industry sectors. It is suitable for individuals who require:

- a pathway to employment or further vocational training
- transferable skills and knowledge for a range of job roles
- occupational outcomes for industries and agencies in all geographical areas of Australia especially regional, rural and remote local government areas (LGAs).

Unit selection will be determined by the outcome or intended outcome for the individual who are often engaged in a range of job tasks due to their location or the seasonal nature of their role.

Graduates with this qualification perform a defined range of skilled operations, usually within a variety of broader related activities involving known routines, methods and procedures. They may have skills and knowledge that are transferable across a range of job roles. They apply some discretion and judgement when selecting equipment, services or contingency measures.

Licensing, legislative, regulatory requirements

No licensing, legislative or certification requirements apply to this qualification at the time of publication.
